Randy Shimizu
Director of Probation Officers
Community Corrections Department
Hastings, Minnesota

Re: John F. Heurung

Dear Mr. Shimizu:

The above-named patient of ours has the following diagnosis:

Pulmonary emboli, deep thrombosis, with a
Greenfield filter in vena cava with a
lupus disorder due to stress.

Based on this diagnosis, doing intense manual labor
with certain objects could cause severe health
problems if he were to be cut or punctured.

I hope this information is what you need. If I can
be of further service, please let me know.

Sincerely,

Milton H. Seifert Jr. M.D.
